10-inch active speaker - 250W RMS with DSP

- High-quality active loudspeaker, designed for stand mounting or use as a stage monitor.
- Sturdy plywood construction with durable polyurethane paint.
- Equipped with a 250 W RMS amplifier, 10" woofer and 1.35" titanium tweeter.
- Crystal-clear sound reproduction.
- Built-in dynamic equalizer for deep, punchy bass.
- Advanced DSP processor with multiple presets for different applications:
 - Front mode for use as a stand-alone loudspeaker
 - DJ mode
 - Speech mode
 - Scene monitor mode
 - Integrated high-pass filter for use with subwoofers
- Mixable dual audio input source :
 - Input A with level control :
 - Balanced line input jack/XLR (+ RCA)
 - Integrated Bluetooth receiver
 - Input B with level control :
 - Balanced line input jack/XLR (+ RCA)
 - Balanced microphone input jack/XLR
- Link output: provides a mixed signal from both inputs A and B, ideal for daisy-chaining.
- Optional carrying case for optimum protection.

Caractéristiques
