

BLAST-12A

12-inch active speaker - 370W RMS with DSP

Référence: B08639

469,00 € inc. VAT

- High-quality active loudspeaker, ideal for stand mounting or use as a stage monitor.
- Sturdy plywood construction, coated with highly resistant polyurethane paint.
- Equipped with a powerful 370 W RMS amplifier, 12" woofer and 1.75" titanium tweeter.
- Exceptionally clear sound reproduction for an immersive audio experience.
- Built-in dynamic equalizer for deep, rich bass.
- Integrated DSP processor with multiple presets for different types of use:
 - Front mode (stand-alone speaker)
 - DJ mode
 - Speech mode
 - Scene monitor mode
 - High-pass filter for use with subwoofers
- Two mixable audio inputs for versatile configuration :
 - Input A with level control :
 - Balanced line input jack/XLR (+ RCA)
 - Integrated Bluetooth receiver
 - Input B with level control :
 - Balanced line input jack/XLR (+ RCA)
 - Balanced microphone input jack/XLR
- Link output: combines signals from inputs A and B to produce a mixed audio output.
- Optional carrying case available for easy protection and transport.
