

BLAST ARRAY12A

Powerful HQ active speaker system (450 W RMS - 12" sub + 8 x 3.5" column) with 120° horizontal dispersion

Référence: B08641

790,00 € inc. VAT

- High-performance, high-quality active system with 120° x 40° dispersion (HxV) for optimized sound coverage.
- Solid plywood design, coated with durable, hard-wearing polyurethane paint.
- 12" subwoofer with 450 W RMS power, combined with a column with 8 x 3.5" drivers.
- Cable-free connection between subwoofer and top speaker for fast, convenient installation.
- Built-in dynamic equalizer for deep, powerful bass.
- On-board DSP processor with multiple presets for different usage scenarios:
 - Music mode
 - DJ mode
 - Speech mode
 - Short-range bass for indoor use
 - Long-range bass for outdoor use
- Two mixable audio inputs for maximum flexibility:
 - Input A with level control :
 - Balanced line input jack/XLR (+ RCA)
 - Integrated Bluetooth receiver
 - Input B with level control :
 - Balanced line input jack/XLR (+ RCA)
 - Balanced microphone input jack/XLR
- Link output: combines and transmits the mixed signal from inputs A and B.
- Carrying cases for subwoofer, column and coupling bar are included for easy protection and transport.

Caractéristiques

Brand	JB Systems
Protection class	IP20
Function	Bluetooth, DSP
Power	450 W rms
SPL max (@1m)	96 dB
