Battery powered outdoor LED floodlight, built around 6 RGB, white and amber LED elements. The perfect solution for outdoor applications: receptions, events, lighting of trees, plants, paths...

accu light

- Battery powered outdoor LED floodlight, built around 6 RGB LED elements, white and amber, to avoid color shadows.
- Beam angle = 22
- The projection angle can be set to 25° (from vertical to horizontal)
- The perfect solution for outdoor applications: receptions, events, lighting of trees, plants, paths...
- Autonomy of +/-10 hours in fade mode with a fully charged battery!
- Each projector is equipped with a wireless transceiver module that is 100% compatible with the W-DMX G4 protocol developed by Wireless Solution Sweden.
- The projector can still be used with the battery empty: just plug it into the mains!
- The RGB color change, white and amber, is very smooth thanks to the high frequency electronics of the dimmer.
- The internal battery charger recharges the battery while the projector is running on AC power.
- Different modes of operation:
 - Autonomous: personalized colors at your choice or automatic, and color change synchronized on the rhythm.
 - Master/slave mode: light shows synchronized to music, beautifully pre-programmed.
 - DMX controlled: wired and wireless. (5 modes: 4, 5, 9 or 10 channels, Ledcon-02 Mk2)
 - Controlled by a small LEDCON-02 Mk2 controller or a LEDCON-XL controller from JB Systems.
 - Controlled by a wireless IR remote control
- Waterproof power input (Neutrik PowerCon® compatible).
- Sealed 3-pin XLR input and output connectors.
- **NOTE: This product has an IP65 rating when used for non-permanent outdoor installation and under normal conditions (not exposed to sea water).**
