69,00 € inc. VAT

Light cover for BT-CHROMA 800. Reduces glare

SKU: B05559

Categories: [Architectural spotlights](#)

EAN13 : 5420025655590

brand Briteq

- This light cover is attached to BT-CHROMA 800 to reduce the visibility of LEDs during installation and to avoid annoying glare for passersby.
- Separate shielding for each LED virtually eliminates the risk of side glare.
- Thanks to its robust construction, this screen is perfectly suited for permanent outdoor installations.
- Due to its weight, the screen must be attached to the projector with stainless steel bolts, but this also prevents theft of the accessory.
