

BT-CHROMA 800 - FIX install set

Référence: B05546

31,90 € inc. VAT

Kit to quickly transform the BT-CHROMA 800 into a spotlight for a fixed outdoor installation

- The BT-CHROMA 800 comes standard with XLR inputs/outputs and power connectors for use in rental applications. This kit allows the projector to be converted very quickly into a fully equipped projector for fixed outdoor installations.
- The kit consists of :
 - A waterproof module with 2 stainless steel cable glands (Ø 10mm) and internal terminals for fixed connection of power cables.
 - A waterproof module with 2 stainless steel cable glands (Ø 7mm) and internal terminals for DMX cable connection.
 - Two stainless steel hex head bolts for fixed locking of the tilt mechanism.
- Both modules are equipped with internal connectors, so that the projector can be converted very quickly and without soldering.
