

BT-FOAMLIQ25 (concentrate)

Référence: B04764

199,00 € inc. VAT

Concentrated foaming liquid for long-lasting results, in 25 L cans

- This concentrated foaming liquid is designed to deliver exceptional, long-lasting results with foam machines.
- The resulting foam is particularly light and airy.
- The liquid should be diluted before use, with a recommended concentration of between 2% and 4%.
- The ideal solution depends on the desired effect and the machine used:
 - For 2% dilution, mix 25L of liquid with 1225L of water, giving 1250L of ready-to-use foam.
 - For 4% dilution, mix 25L of liquid with 600L of water, giving 625L of ready-to-use foam.
- Use only with compatible foam machines.
- For professional use only.
- Read safety instructions carefully before use.
