brand Briteq

- This concentrated liquid for foam machines is specially formulated to deliver excellent, long-lasting results.
- The resulting foam is extremely airy
- This highly concentrated foaming liquid **MUST BE diluted BEFORE USE** to a concentration of 2 to 4%.
 - For a 2% solution, mix the contents of 5 L with 245 L of water to obtain 250 L of ready-to-use foam.
 - For a 4% solution, mix the contents of 5 L with 120 L of water to obtain 125 L of ready-to-use foam.
- Use only with appropriate foam machines
- For professional use only
- Read safety instructions before use
