

# BT-FOGLIQ5 FAST

Fast dissipating smoke liquid for CO<sub>2</sub> jet effect smoke machines - 5 L canister.

Référence: B04759

20,90 € inc. VAT

- This fog fluid is specially designed for use in vertical fog machines.
- Its unique formula produces a smoke that dissipates quickly, offering a spectacular effect.
- It realistically simulates vertical CO2 jets when used in powerful vertical smoke machines.
- It is an economical and practical alternative to expensive and difficult-to-transport steel CO2 cylinders for traditional CO2 jet effects.
- The smoke generated is odorless, non-irritating, non-toxic and non-flammable.
- Produced in the EU, this smoke fluid benefits from rigorous quality control to guarantee its performance.
- Complies with EC regulations 1272/2008 (CLP), 1907/2006 (REACH) and EC directives 67/548/EEC and 1999/45/EC, as amended.
