Overview

1250 W ultrasonic heavy fog machine, ideal for creating a thick, low-lying fog effect at your professional events.

Smoke production thanks to a powerful ultrasonic element that mixes smoke liquid and water, without the need for dry ice

Quick-fit system with black hose and "fast click-on" device for easy installation

Fog and fan speed control via 2 DMX channels or integrated control panel with LCD display and timer

Wireless DMX compatibility: easily add an optional WTR-DMX dongle (Briteq code: B04645) for wireless control

Wireless RF remote control included for convenient remote control
