

BT-H2FOG II

1500 W ultrasonic heavy smoke machine in flight case

Référence: B04899

1390,00 € inc. VAT

- 1500W Low Fog ultrasonic machine mounted in a flight case.
- Two powerful ultrasonic elements convert the mixture of smoke liquid and distilled water into a large amount of beautiful ground-level fog.
- Ideal for covering areas up to 120m² with thick ground fog.
- No more hassle with expensive and hard to find_{CO2} dry ice!
- Smoke liquid recommended for best results: BT-LOWFOG LIQUID 5L (code: B04854)
- Quiet operation: ideal for use in theaters, television studios, etc.
- The black pipe is equipped with a "quick snap" system to reduce installation time considerably!
- The metal nozzle provided ensures a better distribution of the fog.
- Adjustable fog volume and fan speed:
 - Via 2 DMX channels
 - Via on-board control panel with LCD display and timer
- Water tank made of "304" stainless steel (instead of ordinary treated iron) to prevent rust!
- Ready for wireless DMX: just plug in the optional DONGLE WTR-DMX key! (code: B04645).
- original Neutrik powerCON and 3-pin DMX connectors for input and output.
- Sturdy flight case, equipped with recessed folding handles and 4 soft rubber wheels with brakes.
