

BT-LEDROTOR

Référence: B05516

1259,00 € inc. VAT

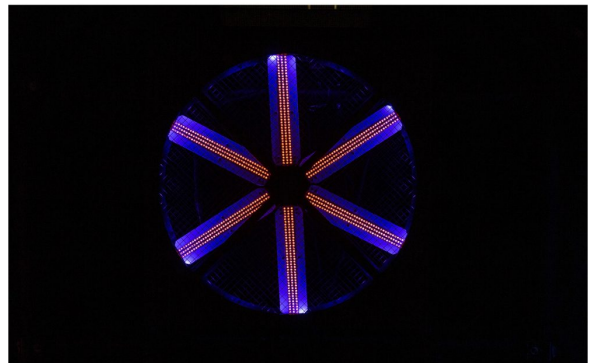

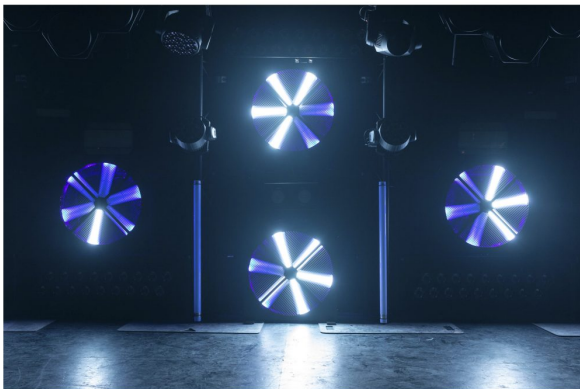

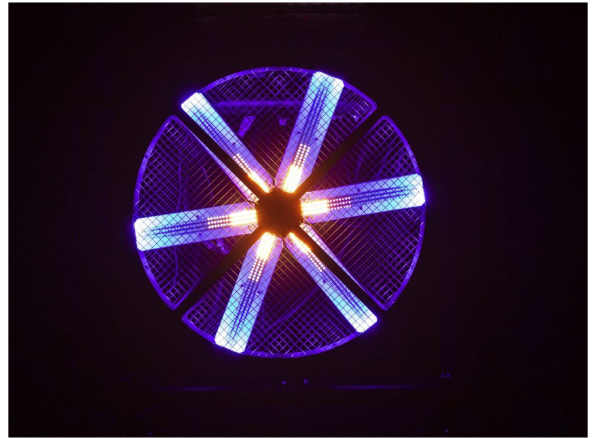

BT-LEDROTOR is a 70x70cm high power LED effect fan for TV studio, rental, etc. Each of the 6 blades is equipped with 5 RGB LED sections that you can control individually. In addition, a UV LED effect was added.

- High Power LED EFFECTS FAN 70 x 70 cm
- Suitable for all kinds of entertainment applications: TV studios (flicker-free), rentals, discos...
- The 6 fan blades are equipped with 720 RGB LEDs in total
- Each fan blade is divided into 5 individual RGB sections (total: 30 pixels)
- The power of each fan blade can be controlled individually!
- Exceptional integrated pixel patterns + free pixel programming.
- 32 UV 3 W LEDs illuminate the white blades in the dark!
- There are 3 DMX modes:
 - 5 channels: the "simple" mode allows you to run many built-in effects without any programming
 - 12 channels: the intermediate mode offers more flexibility, but remains simple to use.
 - 33 channels: Full control of all functions, including pixel control!
- Ready for wireless DMX connection: just plug in the optional DONGLE WTR-DMX! (Briteq® Code: B04645)
- Very slow (3 RPM) to very fast bidirectional fan rotation
- RDM function for: channel mode, DMX address, temperature control, etc.
- OLED display with backlit touch buttons for easy setup.
- Easy installation on beam, thanks to the 2 omega hooks included
- Easy to install on the floor with the 2 included feet
- Intelligent placement of input/output connectors to ensure nearly invisible cable routing.
- Easy serial connection: 3-pin and 5-pin input/output + Neutrik® PowerCON®.
- Power supply 100 V~240 V 50/60 Hz.
- A special flight case of 80 x 60 cm is available in option for the transport of 4 devices + cables.
