

BT-LOWFOG LIQUID 5L

Heavy smoke machine fluid **Replaced by BT-FOGLIQ5 LOW**

Référence: B04854

- This fog fluid is specially developed for use in LOW FOG fog machines.
- The carefully chosen composition creates a thick smoke that covers the ground but quickly disappears as soon as the smoke begins to rise.
- A perfect replacement for expensive and difficult to transport CO2 ice.
- The smoke is odorless, non-irritating, non-toxic and non-flammable.
- Complies with European Directive 1999/45/EC (and its amendments), taking into account Directive 67/548/EC.
- In accordance with the new European REACH regulation of June 1, 2007.
