

BT-NONAPIXEL WHITE

Extremely powerful and compact IP65 outdoor spotlight with a very narrow white beam and superb RGB HALO effects

Référence: B05532

339,00 € inc. VAT

- Compact but extremely powerful outdoor spotlight producing a very narrow white beam! (max 235'140lx @1m * 9'406lx @5m)
- Uses the same lens and 60W CW/WW LED as our famous BT-NONABEAM!
- Adjustable white: from warm white 3000K with high CRI to cool white 6000K.
- Different beam angles, thanks to the included filters with magnetic installation frame:
 - 4° beam : excellent alternative to the old "halogen" ACL PAR projectors !
 - 10° filter: wider beam but still concentrated
 - 45° filter: to be used as a normal white projector
- Great HALO effects with 30 RGB pixels
- Many pre-programmed HALO effects + FULL pixel control.
- Different DMX modes:
 - 5CH mode: beam control without HALO-ring effects
 - 12CH mode: beam control with basic pre-programmed HALO-ring effects
 - 16CH mode: beam control with adjustable pre-programmed HALO-ring effects
 - 96CH mode: beam control with full pixel control to create your own HALO-ring effects
- IP65 rating for outdoor use!
- RDM functionality for easy remote configuration: DMX addressing, channel mode, ...
- Lockable OLED display + backlit touch buttons for easy installation
- DMX control channel (dimming curves, dimming speed, ...)
- 3-pin DMX I/O and IP65-Power I/O for easy daisy-chaining
- An optional modification kit is available to modify the 3 pin XLR IP to 5 pin (KIT BT-XLR3TO5 - code: B05523)
- No fan cooling: completely silent!

Caractéristiques

Brand	Briteq
Controllable colours	RGB
