

BT-STAGEPAR 6in1

LED Projector 12x 12W RGBWA+UV - 25

Référence: B04377

- Powerful LED PAR, perfect for rental companies, discos, professional DJs, etc.
- Powerful 25° beam thanks to the 12 W "6 in 1" light diodes (Red, Green, Blue, White, Yellow, Ultraviolet) in a classic PAR armature.
- All color combinations are possible and a black light effect (ultraviolet) is included!
- Excellent RGB color mixing and 0% dimming.
- Backlit alphanumeric liquid crystal display for selecting the various options in the configuration menu.
- Choice of lamp behavior: halogen lamp (slow) or diode (fast)
- Four intensity variation curves: linear, square, inverted square, S-curve
- If there is a DMX signal failure, the fixture will switch to "all off" or "hold" mode as you choose.
- Lock function to prevent unwanted configuration changes.
- Works in stand-alone mode and in master/slave configuration:
 - Allowing you to compose your static color
 - Automatic color fades and manual speed control
 - Automatic color changer and manual speed control
 - Automatic color changer based on sound with manual sensitivity control
- DMX controllable: 8 different modes: 1-9 channels.
- RDM functionality for easy remote configuration: DMX addressing, channel mode, ...
- White balance to perfectly match the colors of several projectors.
- Factory default settings + 2 personal settings that can be saved/loaded.
