

## BT-VENUELITE4 ACCU

Rechargeable Li-ion battery for BT-VENUELITE4 After installation, "escape light" function becomes available

Référence: B05181

**219,00 € inc. VAT**

- By installing this optional rechargeable battery system, the "escape light" function becomes available.
- In the event of a power failure, the emergency lighting function is automatically activated.
- At 80% light intensity, battery life is +/- 2 hours. Autonomy can be extended by further reducing the light output of the evacuation function, for example by up to 50%.
- The 18 V/5.2 Ah (93.6 Wh) Li-ion battery is automatically charged in the BT-VENUELITE4.
