brand Briteq

- BTI-BEAMBAR18 is a highly versatile 1 m long outdoor LED pixel mapping bar.
- Excellent for many rental projects, TV studios, concert stages, nightclubs and more.
- Equipped with 18 extremely efficient, narrow 6° optics, combined with powerful **25W RGBL LEDs**.
- IP65 protection for outdoor applications.
- The included magnetic frost filter turns the spotlight into a beautiful washlight solution.
- Total pixel control with intuitive effects engine or via DMX, Art-Net or sACN.
- 11, 20, 24, 76 or 96 DMX channels + RDM function for easy remote configuration.
- 16-bit dimming with adjustable speed and 3 different curves.
- Built-in CCT presets from 1700K to 8000K.
- LED refresh rate adjustable from 1200Hz to 25000Hz.
- Quick-locking system allows spotlights to be easily mounted horizontally or vertically together.
- OLED display with touch-sensitive buttons for easy navigation.
- Seetronic IP65 XLR 5-pin connectors, can be converted to XLR 3-pin with our BT-XLR5T03 kit.
- Seetronic IP65 RJ45 connectors for Art-Net and sACN connectivity.
- Integrated Art-Net to DMX conversion.
- Seetronic IP65 TRUE1-compatible power supply inputs/outputs.
- Software updates via standard RJ45 network cable.
- Sturdy tilt brackets with omega brackets (included) for quick installation.
