Handle access	two side openings, Velcro closures
Retention	two nylon straps with Velcro closures, underneath the subwoofer
Fitting	tilt onto rear wheels, grille facing up
Marking	white printed logo

Overview

Protect your CARBON18ASub with a custom-fit cover.

Protect your CARBON18ASub with the COV-CARBON18ASub, a custom-fit protective cover made from water-repellent 600D Oxford fabric on the outside, backed by a 5 mm composite foam layer with an inner nylon lining. This reinforced thickness shields the subwoofer from knocks and scuffs day to day, on the job and in storage.

Designed to be fitted using the subwoofer's rear wheels.

The cover is designed to be fitted with the optional ATOM-WHEELS kit installed: tilt the CARBON18ASub onto them, grille facing up, then slide the cover over it. It's held in place by two nylon straps with Velcro closures underneath the subwoofer. Two side openings, closed with Velcro, give access to both handles without removing the cover, so the protected subwoofer can be moved without delay.

Key features:

Custom-fit cover for the CARBON18ASub

Water-repellent 600D Oxford outer fabric

Reinforced thickness (5 mm composite foam) for subwoofer protection

Inner nylon lining

Fitted by tilting onto the rear wheels, grille facing up, and sliding the cover on
