Overview

Protect your NOVA-15A with the COV-NOVA-15 cover.

The COV-NOVA-15 is a custom-fit protective cover for the NOVA-15A speaker. Its water-repellent 600D Oxford exterior, lined with a 5 mm composite foam layer and an inner nylon lining, protects the speaker from everyday knocks and abrasion. It is held in place by two hook-and-loop nylon straps underneath the speaker, for a stable, secure fit.

Two openings, closed with hook-and-loop fastening, give access to the top handle and one side handle without removing the cover, for quick setup and breakdown.

Key features:
