

DS 12

This mini DMX splitter divides any DMX chain into 2 independent lines, problems on 1 line do not affect the second!

Référence: B04631

- The perfect solution for many DMX line problems: this mini DMX splitter divides any DMX chain into 2 independent lines, problems on 1 line do not affect the second!
- Maximum safety, thanks to the total galvanic isolation between all inputs and outputs
- 100% RDM compatible for bi-directional DMX communications
- The overdrive function makes your DMX installation more reliable and flexible to set up.
- Specially designed for professionals:
 - Small size: it can be hidden anywhere
 - Very robust construction: perfect for rental
 - It can be fixed with any lattice clamp: easy mounting to lattice
- Can be used with our COMBI cables (Power + DMX combined):
 - 1 INPUT: 3-pin DMX + 5-pin XLR + IEC 10A power supply
 - 2 OUTPUTS: each with 3-pin XLR DMX + IEC 10A power socket
- Internal power supply 100-240Vac

Caractéristiques

Brand	Briteq
