

## DSP-4 Mk2 /G

Multifunctional dimmer/switch pack with 4 sockets (German Schuko).

Référence: B04644

**299,00 € inc. VAT**

- Multifunctional dimmer/switch pack with 4 sockets (German Schuko).
- Prepared for use with low power LED loads: works with minimum loads of only 10 watts per channel.
- Maximum output power: 4x 1850W (Maxtot = 3450W/15A)
- Thanks to the design of the 19" brackets, the DSP-4 MK2 can be mounted in various ways:
  - Mounting in a standard 19" rack
  - Wall mounting for permanent installations
  - Mounting in or under an ALU bridge with hooks
- Lockable DMX inputs/outputs with POWER/DMX presence indicator
- 5-character LED display + 4 keys for easy menu navigation:
  - DMX addressing: each channel can receive its own DMX address
  - Assigning the dimmer or switch function for each channel individually
  - Separate presets for each channel with memory function (no controller needed)
- Input power supply with built-in 15A automatic fuse
- Individual 8A fuses for each channel
- All channels are equipped with 40A triacs for better reliability
