

DZ-PAD

Touch wall controller for DZ-MATRIX

Référence: H11399

379,00 € inc. VAT

The matrix at your fingertips.

The DZ-PAD box controls inputs, outputs, scenes and the system. The system is fully customizable. The names of the inputs and outputs are those created in the DZ-MATRIX software. It is possible to lock the box with a password. On the back, the DZ-PAD has an RD port to connect to the matrix or to the DZ-EXPAND*. The second port allows to connect a second controller in chain. Be careful, if a second controller is connected, it will be necessary to supply the box with 24V DC.

**Use CAT5e or CAT6 cable with a maximum length of 100 m.*

Installation:

Compatible with standard box (Legrand model) **Dimensions:**

- Length: 150 mm
 - Width: 115 mm
 - Height: 25 mm
- Screen:**
- Size: 4.3 inches
 - Visible dimensions: 95 x 54 mm
