119,00 € inc. VAT

Professional multiband acoustic optimizer with spatial stereo processor and mono subwoofer output

- This multiband Sound Enhancer adds harmonics to audio, considerably improving the definition, warmth and transparency of music.
- Soft or Tight bass treatment: dramatically improves bass punch!
- Enhancer/Exciter with multi-band adjustment from 1 kHz to 8 kHz.
- Separate surround processor for a broader stereo experience.
- Separate mono output for subwoofer with adjustable cutoff frequency (80 → 250 Hz).
- Subwoofer phase inversion switch.
- Balanced XLR inputs/outputs.
