High power projector (37x 10W CREE LED 6500 K) for large showrooms, car shows and exhibition stands

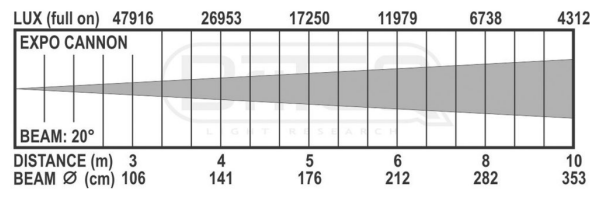

- This powerful projector is the perfect choice for large booths and showrooms.
- Very effective for car shows!
- The 37 cold white (6,500 K) 10 W "CREE" LEDs produce an extremely powerful 20° beam (*different beam angles are available on request*).
- Very high CRI factor >85, which is important for a perfect color rendering!
- Modes:
 - Stand-alone: simply set the dimmer and you're ready to go!
 - DMX-controlled: You can easily set individual dimming levels on all fixtures in the DMX line using any DMX controller.
- The device can be used as a powerful directional LED strobe light!
- Thanks to the low power consumption, only 380 W at full output, the electricity bill will be reduced while preserving nature!
- Quiet operation thanks to the temperature-controlled cooling system with "low air flow".
- High contrast OLED display for easy menu navigation.
- No flickering during TV recording thanks to the LED refresh rate of 3.6kHz!
- The lamp can be continuously adjusted to imitate the behavior of halogen LED lamp.
- Four intensity variation curves: linear, square, inverted square, S-curve
- In case of DMX failure, the "all off" or "hold" modes will remain available.
- RDM functionality for easy remote configuration: DMX addressing, channel mode, ...
- Lock function to prevent unwanted configuration changes.
- Factory default settings and personal settings can be stored/loaded.
- 3-pin DMX I/O + Neutrik PowerCON I/O for easy daisy-chaining.
- Extruded black anodized aluminum housing with a very sturdy stand.
- Frost filter and barn doors included.

Caractéristiques

Brand	Briteq
