

FIRMWARE UPDATER

This device allows you to easily upgrade the firmware of compatible DMX effects and fixtures.

Référence: B04319

49,00 € inc. VAT

- This device allows you to easily upgrade the firmware of compatible DMX effects and fixtures.
- An update of several devices of the same type is possible simultaneously, using the DMX in/out connectors.
- The Windows software supplied with the device connects via USB to the "Firmware Updater" device.
- It can also be used:
 - As a small DMX-512 controller to manually test any DMX projector.
 - To assign DMX addresses to our lighting effects / projectors (which are remotely addressable).
- Does not require an external power adapter.

ATTENTION: There are different models of FIRMWARE UPDATER. Check with us to find out which model you need to upgrade your projector!
