Référence: B08318

229,00 € inc. VAT

4-channel PLL/UHF Wireless Microphone Receiver - 19" / 1U Rack housing

Optimize your audio system with this 4-channel wireless microphone receiver, integrated into a 19"/1U Rack housing. Designed for superior performance, it can be combined with up to 4 optional transmitters from among the following:

- **HF-PRO MIC:** Metal handheld microphone for exceptional sound quality.
- **HF-PRO BPACK:** High-quality beltpack with lavalier microphone and headphone option.

Main features :

- **Dual LCD display:** Two LCD screens with microphone battery indicator for easy configuration and real-time monitoring.
- **Audio outputs:**
 - 4 balanced XLR outputs with individual gain control.
 - 1 unbalanced mixed 6.3 mm jack output
- **IR-SYNC frequencies and synchronization:**
 - 4 x 100 frequencies available
 - IR-SYNC technology for fast installation and plug & play operation
- **USB ports:**
 - 2 USB 5 V outputs for charging optional AA batteries, ensuring uninterrupted use
- **Power supply:**
 - 12 Vdc input with adapter included.
 - Compatible with ACCU 12 V car sound systems
- **Easy installation:** Designed for fast, secure 19" rack installation, with antennas that can be mounted on the front or rear of the housing.
- **Frequency range:** 514→542 MHz (4G compatible), free use in the following countries: Belgium, Netherlands, France, Luxembourg, Bulgaria, Switzerland. A license may be required in other countries.
