

HZL-5W

Fog machine fluid, water-based (no fat residues), 5 L **Replaced by BT-HAZLIQ5 WATER**

Référence: B04837

- Liquid for water-based fog machines.
- Produces a much weaker, dry mist than the oil-based version.
- Colorless, odorless and non-flammable
- Leaves no residue
- Complies with the most stringent health and safety regulations.
- Attention: Use ONLY with fog machines equipped with a compressor!
