

LD-POWER 240

LED floodlight power pack, with excellent reliability, is specially designed for use with our high power passive LED floodlights.

Référence: B05122

- LED floodlight power pack, with excellent reliability, is specially designed for use with our high power passive LED floodlights.
- All features are identical to those of the LD-POWER 60 and LD-POWER 120, but with the following additional capabilities:
 - 3 groups of chase sequences, each with 8 chase sequences (3 of them are user editable, each containing a maximum of 42 scenes)
 - Internal clock with weekly program and different timers;
 - The start and end times of the show can be programmed for up to 30 different shows;
 - We can make the tracking sequences work step by step;
 - Improved navigation with an alphanumeric liquid crystal display.
