

LED PAR12-6in1

RGBLA + UV LED spotlight 12 x 20 W in short PAR64 housing

Référence: B05574

390,00 € inc. VAT

- **High-performance LED spotlight** in compact PAR64 housing
- Opening: 17° C
- Equipped with **12 x 20 W RGBLA + UV LEDs** for a wide color spectrum and impressive lighting effects
- **IR remote control included** for convenient remote control
- **Wireless DMX compatible:** optional DONGLE WTR-DMX can be added (Briteq part number: B04645)
- **Multiple operating modes:**
 - **Stand-alone mode with IR remote control:** automatic or synchronized color sequences
 - **Master/slave mode:** synchronize multiple spotlights for coordinated light shows
 - **DMX control:** multiple channel modes for program selection and precise color control
 - **Compatible with LEDCON-XL controller** for advanced lighting effects management
 - **LEDCON-02 Mk2** controller compatibility mode (RGB control only)
- Ideal for mobile applications thanks to low power consumption and high light output
- Perfect for a variety of uses: discos, DJs, rental companies, etc.
- **Smooth dimming** from 0 to 100% and ultra-fast strobe function (no need for additional strobes!)
- **Intuitive OLED display** for easy menu navigation
- **Integrated double stand:** can easily be used as a floor spotlight
