

## **LOUNGE LASER DMX**

Référence: B04221

**159,00 € inc. VAT**

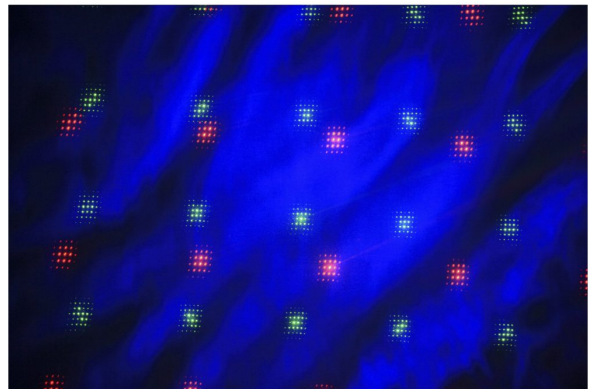

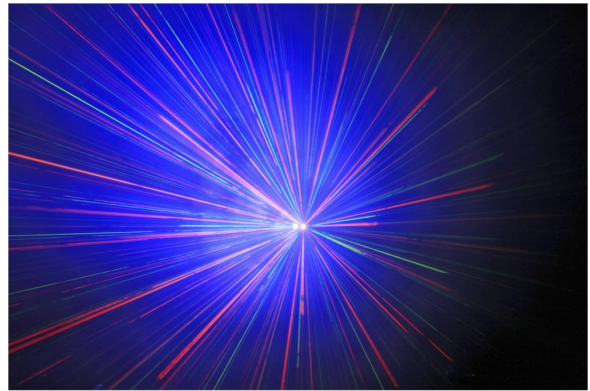

Laser effect - 40mW green + 150mW red

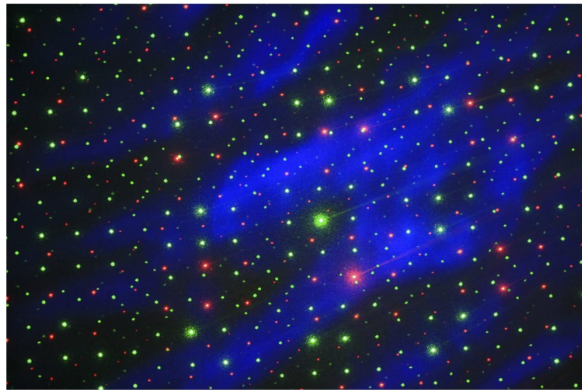

- The best of both worlds: This beautiful effect uses a 40mW green + 150mW red Class 3B laser in combination with a blue LED waterwave projector!
- Using special "grating technology", the beams are scattered into many separate laser beams that move in all directions to create an incredible room-filling effect.
- Plug & play: no need for expensive controllers!
- Several operating modes:
  - DMX control: simplified control by 1 channel or full control by 7 DMX channels
  - Stand-alone operation: sound activated (built-in microphone) or automatic
  - Master/slave: beautiful synchronized shows
- Individual rotation control for each laser and LED effect.
- Interval control for each laser + dimmer for LED effect.
- Perfect for projection on walls and ceilings of bars, clubs, discos, hotels, etc.
- Activation of the lasers with a key for more security.
- In accordance with EN/IEC 60825-1 Ed2, 2007-03 for Laser Safety.

### Caractéristiques

<b>Brand</b>	JB Systems
<b>Controllable colours</b>	Green, Red
<b>Protection class</b>	IP20
<b>Protocole</b>	DMX
