

LSI-30RGB-5050-IP65-5M

JB SYSTEMS Flexible "color changing" LED strip containing 30 RGB LEDs/meter.

Référence: B05416

- Flexible "color changing" LED strip with 30 RGB LEDs/meter.
- IP65 protection, can also be used outdoors, kitchens and bathrooms.
- Total length = 5m: can easily be cut at the markings to obtain different lengths. This 30 LEDs/meter model has cutting marks every 16.7cm.
- Can be easily bent to fit any contour
- The back side is a 3M® self-adhesive strip for easy bonding to any surface.
- Perfect color mixing with 3-in-1 SMD LEDs.
- High power and perfect color mixing through the use of well-selected 3in1 SMD LEDs. (brand "Epistar")
- 24V version: less common and heat generation for a lifetime!
- Wires on both sides for easy connection.
- LED Type: SMD5050 3in1 RGB
- LED Quantity: 30 LED / m
- Power consumption: 7.2 W /m
- Light output (white): 270 lm/m
- Cutting distance: 16.7 cm

Caractéristiques

Brand	JB Systems
Protection class	IP65
Nombre de LEDs/m	30 LEDs
Colour temperature	RGB
LED type	SMD 5050
Length	5 m
