

## MB ROTATOR Heavy duty

Motor designed for facet balls up to a weight of 10kg

Référence: B04123

**72,90 € inc. VAT**

- Robust all-steel construction for maximum durability.
- High stability thanks to large motor shaft.
- Enhanced safety:
  - Mechanical protection in the event of motor shaft breakage.
  - Approved load test with tenfold increase in weight.
  - Second eyelet for attaching an additional safety chain.
  - Designed for mirror balls up to 10 kg (including chains).
