Active system - 1000 W RMS with DSP and Bluetooth TWS. Optional dust cover

The MOJO2200curve uses a curve array architecture that provides optimized, controlled diffusion for sound pressure levels of 128dB SPL. With a total of 12 speakers, the satellite has been specially designed to achieve an effective opening of 100° horizontal and 70° vertical.

A powerful DSP.

Bass is provided by a powerful 12" woofer mounted in a bass-reflex cabinet.

The latter houses class-D amplification with full protection, a 4-input mixer with Bluetooth® TWS and a powerful DSP offering the possibility of adjusting the sound to your personal taste. **Feel the power with Bluetooth® TWS.**

Send music from your cell phone to the MOJO2200curve Bluetooth® module.

Thanks to "True Wireless Stereo" technology, it transmits the audio signal to a second MOJO, so you can enjoy stereo mode!

Pneumatic coupling bar.

Installation is simplified thanks to the pneumatic coupling bar, which allows effortless height adjustment and also provides the wired connection between the amplifier and the satellite.

Minimum height: 177 cm

Maximum height: 210 cm **Column**

- Power: 300W RMS - 600W max
- Nominal impedance: 6 Ohms
- Boomer: 3 x 5-inch neodymium
- Tweeter: 9 x 1-inch
- Dispersion: 120° x 70° (HxV)
- Connector: Insert in cabinet
- Dimensions: 188 x 517 x 243 mm
