Full-featured mixer

This mixer allows the simultaneous connection of two microphones, two instruments and a line or Bluetooth source. A room reverb adds fullness to the voice. Each channel has its own bass, treble and volume controls. A battery level indicator shows the state of charge. Compact and complete, this table offers all the options you need.

Feel the stereo with Bluetooth TWS

Send music from your cell phone to the Bluetooth module in the MOJO500LibertyTWS. Thanks to True Wireless Stereo technology, this module will transmit the audio signal to a second MOJO, allowing you to enjoy stereo Bluetooth mode!

Wide dispersion

The precise orientation of the column's 6 drivers enables sound dispersion of 120° horizontally and 20° vertically. This asymmetrical diffusion minimizes reflections and optimizes sound quality, even in difficult configurations.
