Full-featured mixer

Numerous inputs let you connect a microphone or keyboard to channel 1, a guitar or microphone to channel 2, and an auxiliary line source or Bluetooth® input to channel 3. **Feel the stereo with Bluetooth® TWS**
Send music from your cell phone to the Bluetooth® module in the MOJO500LineTWS.

Thanks to True Wireless Stereo technology, it will transmit the audio signal to a second MOJO so you can enjoy stereo mode! **Wide dispersion**

The controlled orientation of the column's 6 loudspeakers results in a dispersion of 120° horizontally and 20° vertically.

This asymmetrical dispersion avoids reflections, optimizing sound reproduction even in difficult configurations. **Column**
