

SPECTRA-3D Laser

Référence: B04230

799,00 € inc. VAT

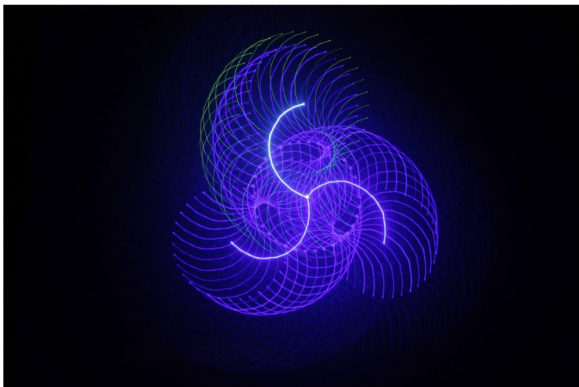

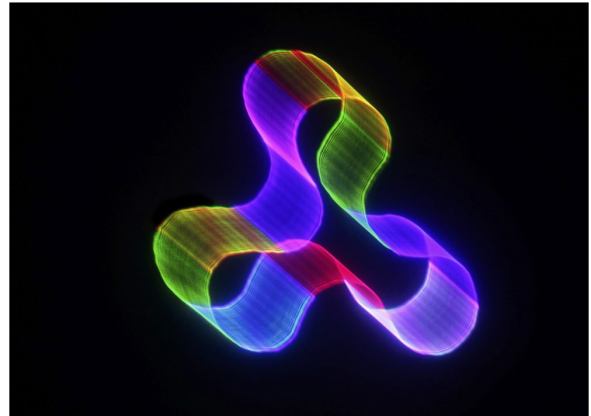

This is the ideal laser for those who can't choose and just want EVERYTHING, even with 3D effects and ILDA control! ...

- This is the ideal laser for those who can't choose and just want EVERYTHING, even with 3D effects and ILDA control! ...
- This eye-catching multicolor laser uses high-quality 25Kpps scanners, combined with 4 effect wheels to create the most spectacular effects:
 - 80 smoothly moving RGB patterns and beams to create laser curtains and other effects
 - Amazing 3D effects patterns and shows
 - Incredible multi-colored polar effect shows
 - Burst effect generates multi-colored laser beams in all directions for a superb laser show that fills the room
- Wonderful pre-programmed laser shows adapted to any use: clubs, discotheques, bar-lounges, mobile DJs, ...
- 480mW Class 3B RGB laser based on an 80mW green CW laser ($\lambda = 532\text{nm}$), a 300mW blue CW laser ($\lambda = 450\text{nm}$) and a 100mW red CW laser ($\lambda = 638\text{nm}$).
- Several operating modes:
 - Controlled by DMX (Digital Multiplexing): 1 channel or 2 channels for easy use or 19 channels for full use
 - ILDA mode: connect the laser to any PC with ILDA compatible interface and use any professional laser software to create beautiful laser shows and logos, etc.
 - Autonomous: sound activation (by internal microphone) or automatic
 - Master/Slave: magnificent synchronized shows
- Integrated microphone
- 3-digit LED display for easy menu navigation
- Key-operated on/off switch and safety switch (lockout) for added security
- Complies with the EN 60825-1: 2014 standards for laser safety

Caractéristiques

Brand	Briteq
Controllable colours	RGB
Protection class	IP20
Protocole	DMX, ILDA
