

SQT-210

1620W RMS active speaker with DSP and Pascal^{Audio®} amplification technology. High sound pressure level (SPL)

Référence: B08615

2190,00 € inc. VAT

- Professional active loudspeaker for a wide range of different applications:
 - **RENTAL:** rugged speakers with versatile audio inputs
 - **STAGE:** the perfect solution for bands who want a compact but powerful audio system
 - **CLUBS, BARS, PRO DJs, etc. :** incredible hifi sound, even at high sound pressure levels
- **Pascal Audio® amplification technology** for maximum impact: LF 810W + MID/HF 810W RMS.
- **DSP controlled** amplifier with different presets:
 - Parametric equalizers
 - Limiter / compressors
 - 2-way active filter with **FIR filtering**
 - Factory presets for different applications
 - Sophisticated amplifier temperature management
 - Software and presets can be updated
 - Fully parametric 4-band equalizer for perfect sound
- SPL max. : 136dB @ 1m
- Perfect for permanent installations and portable use (rentals, bands, DJs, etc.).
- Equipped with high power woofers and a compression driver:
 - LF: 2x 10" long excursion woofers
 - MID/HF: 1.4" B&C compression driver (3" voice coil)
- Rotating horn with a constant directivity of 70°x40°.
- Two mixable input channels:
 - CH1 : Balanced LINE input (XLR / 6.3 mm jack) & unbalanced (RCA / cinch)
 - CH2 : Balanced LINE input (XLR / 6.3 mm jack)
- 2 audio outputs :
 - LINK OUTPUT with only CH1 signal
 - MIXED OUTPUT: link with other speakersInput/output
- powerCON with separate switch.
- Different mounting options for horizontal/vertical suspension.
- A special U-bracket for quick mounting (optional):
 - Easy mounting on TRUSS with PAN/TILT capability
 - Pole mount with PAN/TILT capability
 - Top/bottom handles with 38mm internal speaker stand adapter
- Premium Baltic birch multiplex with a scratch-resistant black polyurea textured finish.
- Combines perfectly with :
 - 1 or 2 active subwoofers SA-B15
 - SQ-215 and SQ-218 passive subwoofers (additional amplifier/filter required)
- Very resistant rubber feet.

Caractéristiques

Brand	Synq
--------------	------

Model size	10"
Power	1620 W rms
SPL max (@1m)	136 dB
Function	Adjustable crossover, DSP, Limiter, Mounting 35 mm
Protection class	IP20
