Silicone tube 12 x 20 mm 3 faces Neon effect for LED ribbon 10 mm - 5 m. Compatible with all ribbons **(IP20 only)** 10 mm monochrome, color or pixel

The silicone tubes allow you to turn the LED ribbons into "Neon" by diffusing the light on the top or the side in a uniform way by simply sliding the ribbon inside thanks to the integrated wire puller. The fixing accessories allow all shapes while respecting the radius of curvature. The plugs ensure the watertightness once glued with silicone.
