

USB3.1-RDS

Référence: B00364

329,00 € inc. VAT

Radio - CD - USB player 19" - 1U.

- The USB3.1-RDS player, in a 19"/1U/48 cm case, combines different audio sources. This device is perfect for all kinds of fixed installations like pubs, stores, hotels, restaurants, shopping malls, etc.
 - **AM/FM Radio:** with RDS and 18 preset stations
 - **CD player with loading slot:** it allows to play both audio CDs and MP3/WMA files (CD-R and CD-RW compatible)
 - **USB/SD card media reader:** supports USB memory sticks and SD/SDHC memory cards up to 64GB
- Compatible with WMA and MP3 tracks with sampling up to 48 kHz/320 kbit/s
- LCD screen displays FM-RDS station names and ID3 tags (title, artist, etc.) for MP3 and WMA tracks
- Various playback modes: normal, random, single/per folder/all tracks repeat.
- 2 fixed outputs + 1 combined RCA/Cinch output:
 - **Perfect for a multi-zone installation:** The FM radio and CD/media player can be operated simultaneously and allow different music to be played on separate outputs!
 - For simple installations, a mixed radio and CD/media player output with volume control is available.
- The RS-232 input provides remote control for, for example, "home automation systems".
- 24 V DC emergency power supply on EuroBlock connector.
