249,00 € inc. VAT

DMX Splitter RDM 2x OUT - IP66

The VRDM-Split is a DMX RDM splitter 1x IN 2x OUT IP66. It boosts the incoming DMX signal on two DMX outputs
RDM-compatible.

It features a Hybrid Power/DMX input from which the DMX signal is extracted and split into two separate lines isolated and protected.

The Hybrid input power supply will be disconnected and a new Power IN power supply will be injected on both outputs.

Hybrids.
