

BT-STAGE-PLFCLAMP-BIG

Stage clamp: connect 2 platforms together, big

UGS : B03721
Catégories : Plateformes, Plateformes STAGE

EAN13 : 5420025637213
brand ConteStage

- This big clamp is the preferred choice to join 2 platforms firmly together.
- This clamp is fixed on the bottom of two platforms to connect them firmly together.
- Joints are perfectly matched with no unwanted vertical movement.
- Can be used in combination with the BT-STAGE-PLFLEVEL for faster and improved leveling.
- The traditional butterfly nut (painful and often stuck while using) is replaced by a hexagonal bolt (Allen key n°8) so an electric screwdriver can be used to increase installation speed.
